covid safe
protocol

Dear guests,

We hope you are well and planning your summer getaways after the very different spring we experienced.

In the summer of 2020, Blue Dolphin is ready to welcome you for a carefree and safe vacation.

Blue Dolphin, from the very beginning, started arrangements and staff training, so that we are ready for the moment we would have the green light from the state and the tourist market to operate!

Sars-Covid-19 health standards follow and are constantly adapted to protocols applied by the World Health Organization and the Ministry of Health which aim to the safety of all guests and employees.

We co-operate with scientists in the field of food and water safety, hygiene and infection prevention, monitor developments and implement preventive measures so that we can ensure the health and safety of our visitors and partners.

We have developed new improved disinfection techniques, including nebulizer machines to reach all surfaces.

In public places, we have added to the existing, new strict cleaning and disinfection measures with increased frequency using appropriate cleaners and disinfectants.

the blue dolphin
covid safe
protocol

For your own protection against the risk of COVID-19 transmission, we use signage to maintain social distance in our already reorganized space.

Hand disinfection stations will be located in various parts of the hotel as well as at each entrance. We provide our employees with masks and gloves where needed.

Food hygiene and safety is ensured by the proper training of food handlers in safe food preparation and presentation. The food safety standard we apply is certified by an independent control body.

In addition, we have designed new, safer approaches to buffet and dinner presentation to prevent COVID-19 transmission.

Daily temperature measurement of our employees serving buffet, dilution of tables, umbrellas and seats in all common areas, latest technology disinfectants are a few of the necessary, but pleasant changes that await you at your favorite destination in Halkidiki.

Blue Dolphin, having the manufacturing advantage of large and scattered spaces throughout, is in itself a safe haven. We look forward to you joining us.

Please find below the detailed measures and actions we follow for the safety of all of us!

With our warmest wishes for health and strength

The Personnel, Executives, Administration and Management of the Hotel.
